Call for Papers – Special Issue (ZAO):

"Positive Psychology at Work: Advancing Theory, Methods, and Practice"

How do positive experiences, behaviors, and attitudes at work emerge—and how do they contribute to well-being, motivation, and performance?

For a forthcoming special issue of the Zeitschrift für Arbeits- und Organisationspsychologie (German Journal of Work and Organizational Psychology), we invite manuscript proposals addressing Positive Psychology at work.

We welcome empirical, theoretical, and review contributions that advance understanding of positive psychological processes in contemporary organizations and work contexts, including multi-level, longitudinal, experience-sampling, or intervention research.

Guest Editors:

Claudia Harzer, PhD (MSH Medical School Hamburg)

Corinna Peifer (University of Lübeck)

Hannes Zacher (Leipzig University)

Important dates:

- April 30, 2026 – Proposal submission (200–500 word abstract)
- May 30, 2026 – Invitations for full manuscripts
- November 1, 2026 – Full manuscript deadline
